# I4MS Supportive Partners Programme

I4MS

## WHY?

- Be formally linked to the I4MS initiative;
- Connect with key stakeholders;
- Access to first-hand information about funding and more
- I4MS participation in your SMEs events

## WHAT WE OFFER

**Visibility** in our communication channels

- **Special content** related to funding opportunities, trends and SMEs support.

- **Exclusivity** in participating actively in I4MS activities: events, interviews, ambassadors and many more!

## WHAT WE ASK IN RETURN

**Visibility** of I4MS in your communication channels

**Support** I4MS by encouraging your local community to participate in open calls.

**Participation** in the I4MS Community

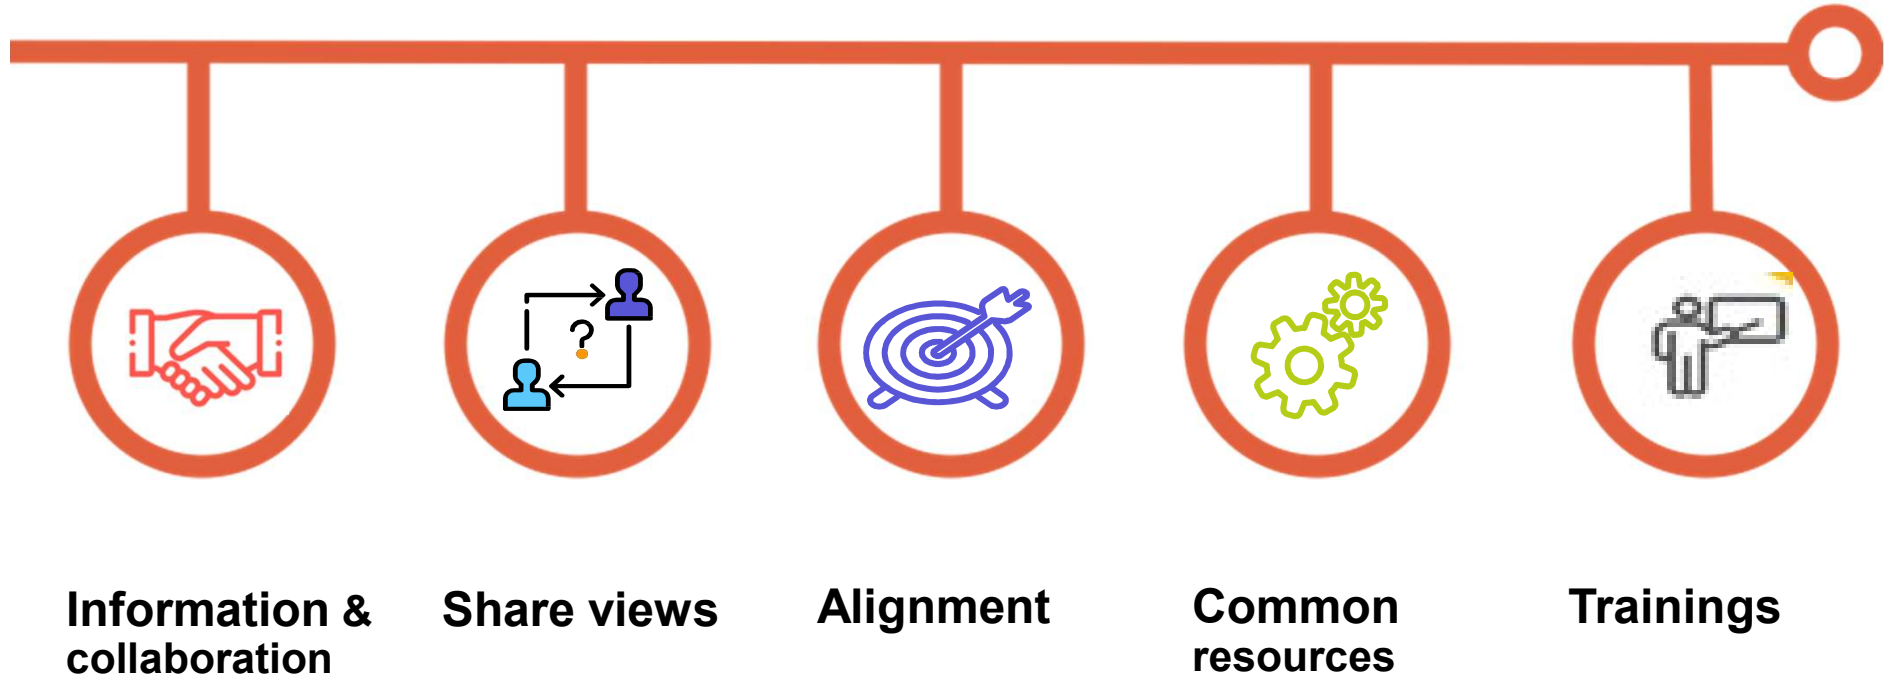

Register here: <https://i4ms.eu/supportive-partners>

A group of people are gathered around a table, working together. One person is pointing at a laptop screen, while others look on. There are papers and documents on the table. The entire scene is overlaid with a semi-transparent orange filter. The text "DIHNET.EU: a central information point for DIHs" is written in white, bold, sans-serif font across the lower part of the image.

**DIHNET.EU: a central information point  
for DIHs**

@ezeikiela.arriazabalaga@tecnalia.com shared an announcement in Announcements

### DIHNET.EU, is now in charge of managing the Catalogue and assessing the new and updated DIH applications.

More information will follow on 3rd April. Digital Innovation Hubs Working group meeting on Digital Technology Marketplace

DIHNET.EU is assessing new DIH applications in cooperation with the Joint Research C... CONNECT (DG CONNECT) of the European Commission

### Digital Day 2019

9 Brussels, Belgium  
04/09/2019 - 04/09/2019  
0 comments · 2 views

The third edition of Digital Day aims at enabling the EU and interested Member States to pool efforts and resources with a view to accelerating digital developments in key areas that can bring tangible benefits to our economies and our societies.

The event will combine panel discussions with high-level political stakeholders from Member States' governments and will be dedicated to areas where digital is expected to make a significant impact: Artificial Intelligence Ethical Guidelines, Cooperation on...

Hi Mania, I would love to see real (ie third-party certified) impact numbers from the hubs. The S3 platform currently has uncorrected, self-reported data and it is difficult to see if the information reported is valid or not. The current draft of the Digital Europe Programme (<https://www.consilium.europa.eu/media/38469/st07058-en19.pdf>) outlines the emergence of European Digital Innovation Hubs (with Seals of Excellence). Could be useful to structure the JRC platform around the combination of HE/DEP.

## DIHNET.EU: opportunities for DIHS in the short term

1. Showcasing at events
2. Working Groups participation
3. Training on community building: end May
4. Support updating your DIH profile in the JRC catalogue
5. Selection of Champions of DIHs
6. Collaboration opportunities among DIHs
